

OVERTURN GOV. WALKER'S ILLEGAL UNION BUSTING BILL NOW! UNION RIGHTS ARE CIVIL RIGHTS *Union Busting is a Crime According to International Law* *No Business as Usual--Kill the Bill or Shut It Down*

A national message from the Bailout the People Movement:

In a final show of disregard for the sentiments of the majority of the people, Wisconsin's Governor Scott Walker severed the union-busting provisions from the budgetary bill and rammed through his vile union busting bill.

Along with violating the "Open Meeting Act" the union busting bill also violates international labor standards set by the U.N. and the International Labor Organization. *(for more info. go to our web site: www.BailoutPeople.org)*

Members of the Bailout the People Movement from around the country, who slept on the floor of the Capitol with our Wisconsin sisters and brothers, are saying that the fight is not over--it has just begun. **NOW!** is the time to do everything possible to stop Governor Walker, his right wing buddies and his billion dollar backers!

If you are unemployed this is your fight! If you are a student this is your fight! No matter what union you are in or what you do - this is your fight!

This is not just a battle against one bad governor - it is ultimately a fight against the entire tea party gang, who want to whip up racism and anti-immigrant bigotry and violence - who want to turn back the time to when there were no rights of any kind, no union rights, no civil rights, no peoples rights.

The people of Wisconsin who have already sacrificed so much cannot stand alone against such a giant enemy. The bankers who have stolen trillions and who have foreclosed on our homes and jobs - are the same bankers and billionaires behind this attempt to smash unions.

What can you do? There is plenty. If your community or student group or even your union has not verbalized its solidarity then make sure they do it now. And make them do more! Get them to act! **Send a delegation to Madison.**

We can all get sick - a lot of us are already sick and tired. Why not get sick for a day or two - and band together with other sick folks to form a caravan to Madison. Stay as long as you can; the people of Wisconsin have open arms and hearts.

Join with your union brothers and sisters for job actions, protests, no business as usual--on **Monday, April 4-the day to commemorate Dr. King's assassination! Union rights are civil rights!** Jobs for all, No Budget Cuts! Education, Healthcare & Housing are a Right! Stop foreclosures, evictions & utility shut-offs! Organize & mobilize!

The bosses hate to hear us talk about "the general strike." So let's start talking about it and even planning it where ever we are at and whoever we are--everyone can find a way of participating whether you are a student or worker. Let's face it Walker and Koch would be on their knees saying "please" if we stuck together and brought their system to a halt.

And if you are too far away - hold a picket line or protest in your town or city square - take it to your favorite bank or billionaire. If the Koch brothers have an office, hold a protest there. Go inside if your feeling cold. If you're feeling tired, sit down! After all we built the buildings - why should we always have to hang outside.
